

National Golf Links of America

Position available: Summer Intern (4)

Educational Requirements:

Currently enrolled in a Turfgrass Management or closely related program.

Experience Requirements:

Prior golf course experience is beneficial but not required. Attitude and willingness to learn go a long way.

Special Requirements:

Must be a career-oriented individual driven to succeed in the golf course industry. Must be self-motivated, hard-working, detail-oriented, and work well with others. Also, must play and have a strong understanding of the game of golf.

Job Description:

Intern will work closely with Superintendent, Assistants and a diverse staff to provide championship conditions on a daily basis. This opportunity will expose intern to all aspects of golf course operations including mowing practices, course set-up, fertilizer and pesticide applications (calibration and record keeping), irrigation (troubleshooting and repair), cultural practices, and tournament preparation.

Benefits:

Onsite housing, meals and uniforms provided. Competitive pay including overtime. Golfing privileges.

Comments:

National Golf Links of America is an exclusively private golf club located on the eastern end of Long Island in Southampton, NY featuring a collection of 18 world-renowned, “true-links” golf holes. It was designed by Charles Blair MacDonald, Father of American Golf Architecture, and officially opened for play in 1911. It is the birthplace of the Walker Cup and was selected by the USGA to once again host the event in 2013.
